

Moisture Emission Control System Warranty

Enjoy the benefits and protection of a Floor Seal Moisture Emission Control System Warranty unmatched by the competition. As your product is controlled from manufacturing through final installation by our highly experienced Floor Seal professionals, we are accountable for every aspect of your installation.

With comprehensive product testing, site monitoring and follow-up evaluations, we ensure that your installation is done correctly and that you are completely satisfied with our work.

Every Floor Seal Technology Moisture Emission Control System Warranty includes:

Repair or replacement of finished floor system and accessories damaged by relative humidity, vapor emission, or alkalinity, for a minimum of ten years.

\$5,000,000 product liability insurance policy from an A-rated carrier.

Guaranteed bonding of the moisture control product to the concrete, with no exclusions for common concrete additives, including silicates.

Guaranteed adhesion of the finish floor covering with our moisture vapor emission control system.

No Warranty exclusions for concrete cracks, joints or improperly prepared substrates.

Assurance of usage of floor covering manufacturer's normal installation processes.

If your flooring manufacturer doesn't guarantee your finished floor system with a comprehensive warranty from a single source, including materials, processes, and a decade worth of accountability, then perhaps it's time you contacted a manufacturer that does –

Floor Seal Technology.
